NEWS & REVIEWS

a slice of PIE

Indoors or out, the "Toncocon" chaise is a unique addition to any setting. From PIE, Project Import Export, Inc., this remarkable piece is made of hand-woven water hyacinth, wrapped tightly around a rattan frame. The chaise's "green" design turns the environmental nuisance of the harmful water hyacinth plant into a fabulous work of art. 786/543-3037; www.projectimportexport.com

natural design

The "Natural Wall" graphic artwork is part of American Design's Signature 2D series. American eco-friendly modern designs offer a subtle choice in environmentally safe products. The line items are made from the reclaimed walls of the original plant and its natural leaf structure is from well-managed sustainable forests. 800-888-7337 www.americandesign.com

jean bon jovi for fortwo

The new fortwo from smart, part of SmartCity, is an environmentally friendly car available in the United States in 2008. With strict environmental guidelines, the fortwo uses 100 percent recyclable synthetics. This past summer, smart joined with Lee Iacocca by sponsoring a fortwo signed by each candidate as the first car shown here. For more information, visit www.smartusa.com.
