Project Import Export

A lounge shaped like a pair of lips? Been there. OK, so try this **Steel Tongue** chair. It is plenty rebellious. With a weave like a ball of rubber bands, the steel-framed piece sports an aluminum finish and is 31 inches long, 20 inches wide, and 24 inches deep.

Project Import Export

The sculptural **Tonecoon** daybed lends new meaning to the term "spooning." Its inviting curves are shored up by a durable rattan frame covered with a lacquered skin of woven water hyacinth. The manufacturer has transformed this hardy plant—which grows in such abundance that it's often an environmental nuisance—into unique, handmade home furnishings. It is approximately 5 feet 6 inches wide, 6 feet 6 inches long, and 3 feet tall. 19331 Southwest 31st Court, Miramar, FL 33029; 786-543-3037; projectimportexport.com. **circle 671**
